

## FESL CLASSIFICATION REVIEW FORM

This form should be used where a ratepayer seek a Council review of their property's Fire and Emergency Services Levy (FESL) land classification.

Council has determined your property's Fire and Emergency Services Levy (FESL) land classification and advised you of this. There are six of these classifications set out in the FESL Act 2017: 'Government', 'Public Benefit', 'Residential', 'Farmland', 'Industrial' and 'Commercial'. Descriptions of these classifications are set out in detail in the FESL Act.

In addition, properties are classified as 'Vacant' or 'Non-vacant'. Under the FESL Act, land can only be classified as 'Vacant' if:

- 1) the land is classified as 'Residential', 'Industrial' or 'Commercial', and
- 2) there are no buildings or structures on it that are being or could be used for a residential, industrial or commercial purpose, and
- 3) it is not being used for storage or treatment of anything.

Further details on FESL classifications can be found on the FESL website at <http://fesl.nsw.gov.au>
